Bush Habitat Restoration Co-op

Bush Habitat Restoration Co-Op is looking to hire Trained or Trainee Bush Regenerators to work 2 to 5 days per week, on a casual basis. We are currently looking for staff that can commence immediately and work until the end of the financial year (end of June), with the possibility for extended work after this period. Although bush regeneration experience is desired, we will provide training on the job. We currently work on bushland sites in the East, West and North of Sydney and the role requires that you have your own vehicle to be able to travel to sites.

Who we are:

Bush Habitat Co-operative was established in 2001 with the aim of providing staff and clients with thoughtful and cost-effective bush regeneration work that is focussed on the needs of the site, particularly protecting and restoring wildlife habitat. Since establishment, our work has been mostly in Endangered Ecological Communities with long-term contracts. All directors and staff work on a casual basis, and many have worked for a number of years with the Co-operative. Our pay rate is somewhat above industry award.

Essential Requirements:

- TAFE Cert III in Conservation and Land Management or willingness to attain
- Physically fit and not afraid of hard work
- Ability to work well as a part of a team
- Own vehicle and current driver's licence
- Own mobile phone

Desirable requirements:

- Experience in bush regeneration fieldwork, with a good understanding of bush regeneration in remnant vegetation
- Degree in Environmental sciences
- Senior First Aid or equivalent
- Chemcert or equivalent
- WHS white card
- Chainsaw certificate

We will offer you:

- Career development in bush regeneration industry
- Mentoring and training for various roles
- Flexible working arrangements

Please email your cover letter and CV with relevant details to Skye Virgin, bushhabitatmanagement@gmail.com or contact Skye on 0411 584 295
